

Organic waste or not?

Proper collection of food waste is valuable for producing **biomethane** and **biofuels that generate energy and heat** for Sesto San Giovanni.

Organic waste yes!

Cooked food (as long as it's cold)

Fish leftovers and bones

Eggshells and nutshells

Tea bags and coffee grounds

Organic waste no!

Plastic bags, containers and cutlery

Mussel and clam shells

Diaspers and sanitary pads

Pet litter

Got a question?
